## Part 1话题

### 地点类

#### 1. Countryside

**Do you enjoy living in the countryside?**

Not really.

Since there are not so many convenient facilities, like convenience stores , subways or big cinemas.

And all I can do there would only be sleeping, having meals, and walking around the place, which is quite boring for me .

**Will you live in the countryside in the future?**

Well, it is hard to say.

If in the future I get bored of living in the city center, I may consider that.

But for now, I prefer lively and dynamic downtown to quiet and less changing countryside.

**What do you usually do in the countryside?**

Well, it depends.

If I go back to my hometown, the countryside there would be rather poor and lack of entertainment facilities, like KTV, so I may just stay indoors and watch TV for days.

But if it's the countryside that has many tourist resorts, I can go sightseeing for fun.

### **Have you ever lived in the countryside?**

Yeah, when I was little.

Back in my childhood, I grew up in the countryside of my town.

Even though I moved to the City center when I was 5, my family and I still went back to that countryside to spend our spring festival together every other years.

## **2. Sceneries / views**

### **Are there any nice sceneries in your hometown?**

Of course.

My hometown is the most famous tourist island in China where many Northern people really like to spend their winter.

And they really like the **seascape, coconut trees and the fresh air** there.

### **Do people like to live in houses where they can see beautiful views and why?**

Yes, I believe they do.

Just imagine the view you can see every time you look out of your window, **the big area of green trees, colorful flowers, even some grand mountains and clear rivers**. It will be so wonderful.

And that can really make you pleasant every day.

**Would you prefer to live in hotels with scenic views, when you're traveling?**

Sure.

Because **appreciating the fascinating views** is all we want when traveling. Plus, if you live a hotel like that, the whole living experience will be better as well.

**Do people like to take photos of beautiful views?**

I think they do.

When the weather is nice, they may take photos of **the blue sky and try to capture the beautiful sunshine**.

And they may also take pictures of the **breath-taking ancient buildings** when traveling around.

### 3. Forest

**When was the last time you went to a forest?**

Well, probably when I was a child.

It was in a tour to a Forest located in the center of Hai Nan island.

And we saw **many green trees and a beautiful lake** there, which was pretty wonderful.

**Do you like going to a forest if you are free? / Do you often go to the forests?**

I'm going to say no.

Because I'm not a very **outdoorsy** person.

And if you ask me to go to the forest and walk for a very long time, watching out for **tiny little insects, horrible snakes** or some other **terrifying wild animals**, that will be a total **nightmare** for me.

**Are there any forests near your place?**

Well, it's hard to say.

If you think a big area of trees in a park could count as forest, then I can say that there are some forests near my home.

However, if we are talking about the real ones, like the **Amazon forests**, then no.

#### 4. Amusement park

**Do you like amusement parks?**

Not really.

I'm just not that into riding all those facilities in the amusement parks, like the roller coaster, it terrifies me.

And I am certainly not very good at shooting at a target and then get a toy from it, so I just can't enjoy the time in this kind of Parks.

**How often do you go to amusement parks? / When was the last time you went to an amusement park?**

Very seldom. / it was so long ago that I couldn't remember the exact time.

The last time I went to an amusement park would be a few years ago when I visited Hong Kong Disney land.

And that was a pretty memorable trip.

**What do you usually do at amusement parks?**

Well, lots of things.

Sometimes, I will ride the roller coaster or go inside of a ghost House.

But most of the time, I am more interested in trying those special snacks in different amusement parks, such as the turkey leg in the Universal studio.

## 5. Island

**Have you ever been to an island?**

Yeah.

I have been to Hai Nan once, which is an island located in the far south of China and famous for the seascape as well as the fresh air.

And the views there were terrific, such as the blue sky, green trees, clean streets and so on.

**Do you want to visit an island if you have a chance?**

Yes, I do.

Because, You know, on the island, the sceneries are always very different from those in the city, even the air smells different.

Also, the breeze at the beach and the tropical atmosphere always give me a feeling of setting free, so I would really love it.

**What do you like to do when you are on an island?**

Well, lots of things.

I can sit under the coconut trees, bask in the sunshine and then drink some cool coconut juice, that would be very cozy.

And some other things to do would be swimming in the sea and sightseeing on the sea by boat.

## 6. Park

**Do you think people like going to parks?/Do you like going to Parks?**

Well, I think so.

The environment there is **peaceful & nice**, as most of the time, you can see **green plants, well-designed sculptures, ancient style buildings** and so on.

Also, there are plenty of places for people to **take a walk, go jogging or do some other leisure activities**, which is good for them to relax.

**How often do you go to parks? / Do you often go to parks?**

Probably once or twice a week.

I go to the park every weekend and sometimes I just sit there, **breathe the fresh air and appreciate the views**.

Other than that, I don't have much Time to go to the park.

**When was the last time you went to a park?**

It would be last Sunday.

That was my only **day-off** last week, so I invited my friend to have a picnic in the park with me.

And we had a really nice day.

**What activities do you do in the park?**

Well, lots of activities.

Sometimes I just take a walk and sit there doing nothing.

Some other times I may have a picnic or **attend some community events** in the park.

## 7. Shops near by

**What are the shops near your place?**

Well, there are too many of them.

Just downstairs of my building, we have several **convenience stores, small supermarkets, cafes and restaurants.**

If we walk a little bit further, there are also many **big shopping malls, Home appliance stores and big Cinemas.**

**Do you often go to the shops around your area?**

Yes, I do.

I often visit the convenience stores downstairs to buy my breakfast.

And sometimes if I get bored of staying at home, I may go for a drink in the café nearby.

**Which shop do you visit the most often?**

That will definitely be the convenience store.

Because it not only **sells milk, all kinds of drinks and bread.**

It also sells some **fresh vegetables and fruits**, so when I eat want to cook by myself, I can get some **great ingredients** right away.

**Are there any big buildings near your place?**

Yeah, there are.

First of all, this **apartment building** I am living in right now is pretty big and it has 24 floors.

And like I just said, there are several big shopping malls and cinemas around here as well.

## 事件类

### 1. Running

**Where do you like to run?**

In the park.

Running in the park is safer than running on the roads where there are too many **rushing cars**.

Also, **the air is fresher and cleaner** here, and while running, I can also appreciate the beautiful view along the streets.

**Do you often go running?**

Not really.

Because honestly I hate doing any kinds of sports.

But sometimes, to **keep fit**, I have to go running once or twice a week if possible.

**How often do you go running?**

Only once or twice a week.

For one reason, I don't have much time to **insist on going running** 3 to 5 times a week.

And for a person who hates sports, this **frequency** is already pretty enough for me to take.

**When was the last time you went running?**

It could be a month ago.

That was the end of my running training.

And after that, I have been really busy this whole month, so I couldn't **spare any time for running**.

Do you think running is a good way to stay healthy?

## 2. Water sport

**What kinds of water sport do you like?**

Honestly, I don't like any of them.

Because I fear water.

Every time I **get inside of the swimming pool, and the water covers my chest**, I just can't breathe. So it is hard for me to like any water sports.

**Do you often do sports?**

Not very often.

I may **do some simple yoga** every morning and go running once in a while.

But other than that, I don't do too many sports in my daily life.

**When was the last time you did some water sports?**

It could be when I was a child.

At that time my father was trying to teach me how to swim.

And after I tried a few times and then failed, I just gave up.

**Have you ever done any water sports?**

Yeah.

Like I just said, I tried swimming once, but gave up in the end.

Except that, I also tried **diving** during a trip, and that's pretty much all.

**Are water sports popular in China?**

I'm not sure.

But I do see many people **going swimming** very often in the summer.

And many Young people nowadays also like to **challenge themselves with diving and surfing**.

### 3. Spend time by yourself

**Do you often spend time by yourself? / Do you enjoy being alone?**

Yeah, most of the time.

I think it's more comfortable to be by myself, since I don't need to take care of others and think about what they want from me.

And I get to do whatever I want in my private space, which makes me feel free.

**When was the last time you spent some time by yourself?**

Just yesterday.

I was all alone in my own apartment, watching movies and chatting with friends via wechat.

After that, I read some books by myself before going to bed.

### 4. Vacation

**Do you prefer long or short vacation?**

I will go for short ones.

Because I'm the kind of person who needs to work and be moving all of the time.

If I take a long vacation, I will get bored real soon and start to think about meaningless things to bother myself, which is not healthy.

**Do you prefer to be indoors during vacations or go to the beach?**

I prefer to stay indoors.

Well, it's more comfortable staying in a familiar Space with your familiar items like TV and computer and phones.

What's more, I don't really enjoy getting tanned under the sunlight on the beach.

**When was the last time you had a vacation?**

Just this September.

At that time, I **asked for a several days off**, so that I could make a trip to Russia with my friends.

And that was really a nice vacation. We saw the Russian **castles and palaces** and bought a lot of **souvenirs** during the trip.

**What do you usually do during vacations?**

Well, lots of things.

Most of the time, I would go traveling with my friends or my family.

Sometimes I will **make use of this time** to try some newly popular restaurants or meet some old friends in my city.

## 5. Break time

**Do you prefer a long break or several short breaks?**

I prefer several short breaks.

**Because I only need 10 to 20 minutes to** recharge myself during work Time and that is already enough.

If I take a long break, I will gradually forget what I need to do next and **get sleepy or tired**.

**What do you usually do during a break?**

Normally something that can **spice me up**.

For example, I like drinking coffee, especially iced Americano, that will make me excited right away.

Also I may **walk around the Office, talk to some coworkers or go to the toilet and wash my face**.

## Why do you need to take a break?

Well, you know, in order to **freshen up myself**.

If it is a long meeting, taking a break **in the middle of it** can help me focus better later.

And at my daily work, I need to take a break after having lunch, so that I can **shake off my sleepiness and get back to work powerfully**.

## How often do you take a break during classes or at work?

Well, probably three or four times a day.

When I am **working on my tasks**, I will take a break every one or two hours, just to walk around and **release the stress in my shoulders or waist**.

And I also have **a lunch break** and **a dinner break** everyday.

## Do you like to watch TV during your break time?

Not really.

Because I usually just have a short break, if I watch TV, I will **start to be curious about the story that will happen later**.

But I will certainly not have the time to finish that program, so **why would I bother to do it?**

## 6. Hair cut

### What's your favorite hairstyle?

Well, actually I don't have a favorite.

First of all, I am still **exploring** what kinds of hair style is the best for me.

And I have tried several kinds of hairstyles, **short or long**, they are all very suitable for me.

### How often do you have your hair cut?

About once or twice a year.

I like to cut my hair to a very short type in the summer, so that I won't feel too hot due to my **thick hair**.

And that would be probably the only one time I would cut my hair.

### How much do you usually spend on your haircut?

About 100 RMB.

You know, there are different **schemes** in the **barbershop** or **hair salon**.

If I go for the lowest band of the schemes, they usually just cost me that much.

### Do you often change your haircut?

No, I don't.

I think my current hairstyle is fine, so I don't need to change it very often.

And I only need to cut my hair in summer once in the year.

## 7. Walking

**Do you walk a lot?**

Probably no.

I usually just walk to the subway stations and my office a few times a day.

And that's only about 30 minutes in total, so I don't think it's a lot.

**Do you walk more often than in the past?**

Actually, less often.

In the past, except walking to school and back home after school, I also took a walk with my parents after every dinner and at weekends.

But now, like I just said, the amount of time of walking is very little for me.

**Do you think people will take a walk more often or not?**

Definitely less often, as well.

Firstly, people are getting lazier and lazier.

And walking is the least efficient type of transportation, so I don't think they would be happy to walk more.

## 8. Planning

### Do you make plans every day?

Well, yeah, most of the time.

Because I need a schedule to remind me what to do next and what tasks I have to finish today, when the deadline is.

I believe that can greatly increase my efficiency.

### Are you good at managing your time?

Yeah, I guess I can say so.

Like I just said, I often make a plan for my day or even the whole week, the whole month.

Also, I always leave some time for the emergencies, just in case they ruin my plan and that works out pretty well.

### What is the latest plan you made?

Well, it would be the work plan for this month.

Because I have a lot of projects going on in my hands, I need a clear plan to help me get them done by the end of the month.

And I also have some important exams to sit, so I have to plan ahead and get ready for them.

### What is the hardest part about making plans?

To predict the process.

Like I have to know, before the deadline, how many tasks I have, and when I can finish 50% of it and when 100%.

Also, emergencies should be taken into consideration ahead of the time, so I need to take a guess of them when making plans.

## 9. Reading

**What kinds of books did you like to read when you were young?**

Well when I was little, I preferred **story books**.

Such as the Snow White and stories about Cinderella, because they taught me a great lesson about friendship and being independent.

Also, they've got colorful **illustrations**, which made them more attractive for a little girl.

**Do you still keep these books?**

Actually I do

I still **read through** some old books of mine once in a while.

And every time I read them once again, I can always **learn something new**, which is pretty amazing.

**Have you ever given others books for gifts?**

Actually I haven't.

I think reading is more of a personal thing.

And different friends have different **taste of books**, it could be really hard for me to pick a perfect book for them.

**What's your favorite type of book?**

Well, I like science fictions the most.

For starters, It **widens my imagination**, because the stories are usually about the space and the future, which is very exciting.

Also, I can totally **be lost in the creative world** and enjoy a nice time reading.

### Have anyone ever borrowed books from you?

Yes, they have.

All of my younger brothers have once borrowed my **textbooks, story books and some magazines.**

Sometimes, my best friends would also borrow some of my books to read because of my **recommendation.**

### Do you read electronic books?

Actually, not very often.

You know, It doesn't have the original feeling that paper books give, which makes it hard for me to **focus on the content.**

And it's not very convenient to **make some notes** on the electronic books.

## 10. Public holiday

**What do you usually do on your holiday?/How do you usually spend your holidays?**

Definitely, have a good rest.

Sometimes, if my friends **invite me out for a movie or shopping**, I will also take it.

**Do you think people need more holidays?**

I don't think so.

We've already had enough holidays, and they are all pretty long.

I think If we have more holidays and more rest, that will make us lazy.

**What are some Chinese holidays?**

Well, a lot.

We have long holidays for **the national Day** and **the Spring Festival**.

And Shorter holidays would be the ones for the **mid autumn festival** and the **dragon boat festival**.

**Which holiday is your favorite?**

I don't have a preference.

Because I am not a big fan of the tradition that we have to be with our relatives during these holidays.

And the festival food and other **customs** are not very attractive for me either.

### Who would you like to go on holiday with?

I will say by myself or with my parents.

I like my personal time, that keeps me rational and peaceful.

Also, I don't see my parents very often in a year, so I should definitely make use of the holiday to be with them as long as possible.

## 11. Smile

### When do people smile to others?

well, in many occasions.

when we meet a new friend or classmate, we'll smile to show kindness.

Also, if we feel embarrassed sometimes, we would also smile to ease the awkward atmosphere.

### Do you smile when someone takes photos for you?

Yeah, sure.

You know, if you smile, you'll look great in the photo.

Also, I think that will make the person who is taking pictures for you feel good, since smile can always make people less tensed.

### Can you feel it when someone's smile is fake?

I think I can.

Some people are just not good at covering their feelings, so if they fake a smile while being angry or sad, it could be quite easy to tell.

Also, they may act awkwardly when faking it, these are all the signs I can pick up.

**When was the last time you saw many people laughing?**

Well, it could be last weekend.

I was having a dinner with my best friends in a nice restaurant.

And we **shared many funny stories**, like some cute guys in the workplace and **gossip about some old friends**, so we laughed a lot at that time.

Sure I do.

I think laughing with them means you are happy with them.

And laughing together will **make this happiness doubled up**.

**Are you the kind of person who makes people laugh?/Do you usually make your friends laugh?**

Probably.

When I am with my friends, they **react quite well to my jokes**.

And sometimes when I'm trying to make fun of some news, my coworkers also say that the way I tell it is quite funny.

**Do you like to watch movies or TV shows that make people laugh?**

Yeah, of course.

**Comedy** is my favorite and I watch them every time I have some free time.

## 人物类

### 1. Voice

I am not very sure.

Maybe when I was a little kid, my voice was **sharp** and **fine**.

But when I grow up, my voice turns **thicker** and even a little bit **husky**.

**Do you enjoy recording your voice and listening to it?**

Sometimes I do.

For example, if I sing a song someday and I think it sounds pretty nice, then I will listen to my singing voice again.

Also, sometimes when I **send a voice message** via wechat, I will play it one more time to listen to my voice.

**Does your voice sound like your parents'?**

Well, I don't know, actually.

For one, I certainly don't sound like my father.

And sometimes I think I sound more like my mother, but **it is not exactly the same**. So it's really hard to tell.

## 2. Concentration

### When do you need to be focused?

When I am working or studying.

At work, if I want to **finish all my tasks within a certain amount of time**, and go home as early as possible, then I have to be very focused.

And when I am studying, if I want all the knowledge to really get into my head, I have to focus on their **rules, patterns and certain usages**.

### What may distract you when you're trying to stay focused?

Well, people talking loudly right next to me.

If they talk too loud, firstly it will **disturb** me.

And if I **overhear** some interesting contents that I also want to know, I may start to focus on the content and forget what I am doing at the moment.

### What do you do to help you concentrate?

**Listening to some music may help.**

If people are talking loudly next to me and I am trying to **block them out**, then I will **put on my earphones** and play some loud music that I like.

Or maybe I will just move to a quieter place, so that I can focus on my job better.

**Is it difficult for you to stay focused on something?**

I guess so.

Because I have to **check on my phone from time to time**, even though there are no messages for me.

Also after being focused for like half a day, I will start to think about having a cup of coffee, eating some snacks or talking to my colleague for a while.

**Do you keep in touch with friends from your childhood?**

And I don't even think about contacting them one more time, since we have been so far away from each other and we're **living a totally different life** now.

Humorous and responsible people.

Humorous friends can always keep me happy, and I really want to feel delightful every time we are together.

**Do you have patience?**

I think I do.

When people come to me with their **confusion and problems**, I always **hear them out**.

What's more, when I am trying to find something I really need at the moment. I won't **get mad easily**.

**How to improve patience?**

Well, that is hard to say.

I think firstly, you need to **understand and affect** that sometimes you just have to wait for a long time to get a good result.

Also, it is also helpful to try to **hold back your temper** and find an efficient way to calm yourself down.

**Are you more or less patient than before?**

I think I'm more patient.

You see, when I was little, I **got upset easily** when my younger Brother didn't get a math question right or asked me some dumb questions. But now, I have met more people and dealt with more kinds of personalities, so I've come to know how to handle things patiently.

**When someone visits your home, would you prepare tea or coffee for him/her?**

I wouldn't prepare either of them.

I think that's too **troublesome**, because if you prepare coffee or tea, you **had better get them some cakes or cookies** as well, which is just not my thing.

Most of the time, a couple of water is fine enough.

**When was the last time you drink some tea or coffee?**

Well, it depends.

If my work place **is close to my apartment**, I would definitely try it.

### Do you prefer public or private transportation?

Honestly I would prefer a private car.

It will be very convenient for me to go around, since I can **take off whenever and wherever I want**.

But in private transportation like bus and subway, It is usually **crowded and smelly**, I only take it because it's cheap.

Also, when you have your own car, you can **drive to wherever you like anytime you feel like it**.

**Is driving to work popular in your country?**

I don't really think so.

Because there are always **traffic jams**, if you drive your own car, **it's really easy to get stuck on the road**, which is quite **disturbing**.

Plus, you need to **maintain the car**, like washing it and **buying gas or gasoline**, which can cost lots of money.
